NEUROSCIENCE AND BEHAVIORAL PHYSIOLOGY

Volume 26, Numbers 1-6, 1996

Engl.

Volume 26, Number 1, January-February, 1996

Hippocampal Mossy Fibers in Alzheimer's Disease - A. I. Kiktenko, N. A. Uranova, and D. D. Orlovskaya 1

Chronobiological Approach to the Assessment of the Role of the Striatum in the Genesis of Mental Depression - É. B. Arushanyan and E. V. Shchetinin 6

Recovery of Behavior Functions Following the Transplantation of the Embryonal Striatum into the Damaged Amygdala of the Rat Brain - I. V. Ermakova and V. V. Zhulin 11

Blockade of Glutamate- and Cholinergic Ion Channels by Amantadane Derivatives - L. G. Magazanik, S. M. Antonov, N. Ya. Lukomskaya, N. N. Potap'eva, V. E. Gmiro, and J. Johnson 13

Peroxidative Oxidation of Lipids in Slices of Olfactory Cortex of the Rat Brain During Long-Term Potentiation - N. S. Nilova and L. N. Polezhaeva 23

Mechanisms of the Formation of Reactions of Cat Motor Cortex Neurons Associated with the Triggering of the Conditioned Placing Reflex: A Hypothesis - V. I. Maiorov 27

Pharmacological Testing of Intracortical Interneuronal Connections - U. G. Gasanov, Yu. L. Martinson, and V. N. Khokhlova 37

Modulation of the Influences of Cortical Input on Hippocampal Neurons by Cholinergic Substances - O. S. Vinogradova, E. S. Brazhnik, V. S. Stafekhina, and V. F. Kichigina 45

Phase Relationships between the Rhythmic Activity of Cortical Structures of the Rabbit at Different Midbrain Reticular Formation Stimulation Frequencies - N. A. Vorob'ev, B. V. Bakharev, V. D. Pavlik, and M. N. Zhadin 55

Inhibitory Interactions in Neuronal Networks Including Cells of the Auditory Cortex and the Medial Geniculate Body - I. G. Sil'kis 62

Activators of G-Proteins Increase the Plasticity of Cholinoreceptors of Common Snail Neurons - A. S. Pivovarov 73

Set as a Physiological Determinant of Behavior - É. A. Kostandov 80

Activation of GABAb, Reduction of the Intracellular Concentration of Ca^{++}, and Inhibition of Protein Kinases Are Possible Mechanisms of the Long-Term Posttetanic Modification of the Efficiency of Inhibitory Transmission in the New Cortex - I. G. Sil'kis 88

Influence of Repeated Exposures to Stress on the Sensitivity of the Organism to Glucocorticoids and Insulin - V. É. Tseilikman, I. A. Volchegorskii, O. L. Kolesnikov, I. A. Vyazovskii, I. A. Gienko, A. A. Kolesnikova, O. A. Afans'ev, and R. I. Lifshits 98

Volume 26, Number 2, March-April, 1996

Distinctions in the Neuronal Activity of the Rabbit Limbic Cortex under Different Training Strategies - A. G. Gorkin and D. G. Shevchenko 103

Modulation of the Reaction of Hippocampal Neurons to Sensory Stimuli by Cholinergic Substances - O. S. Vinogradova, E. S. Brazhnik, V. F. Kichigina, and V. S. Stafekhina 113

Influence of "Animal Hypnosis" on the Motor Polarizational Dominant in Rabbits - E. V. Rusinova 125

Participation of Gamma-Aminobutyric Acid in the Negative Feedback Mechanisms of the Hypothalamohypophyseotesticular Complex - E. V. Naumenko, A. V. Zhukova, and L. I. Serova 133
Results of the Use of Therapeutic Periorbital Electrostimulation in Neurological Patients with Partial Atrophy of the Optic Nerves - A. N. Shandurina, A. V. Panin, E. K. Sologubova, A. V. Kolotov, O. I. Goncharenko, A. V. Nikol'skii, and V. Yu. Logunov 137
Dynamics of the Impulse Activity of Neurons of the Neocortex of Monkeys in a Visual Recognition Task after Brief Oxygen Deprivation - I. S. Breslav 143
Sexual Dimorphism of the Interhemispheric Asymmetry Dynamics during the Processing of the Transcallosal Signal - I. A. Makarova and V. L. Bianki 153
Sensory and Motoric Components of Various Forms of Learned Movement with Change in the Activity of the Neostriatum - K. B. Shapovalova, I. A. Zhuravin, E. V. Pominova, N. M. Dubrovskaya, and G. A. Dyubkacheva 164
Participation of the Glutamatergic Input of the Nucleus Accumbens in the Regulation of the Synaptic Release of Dopamine during Associative Learning - N. B. Saul'skaya and Ch. A. Marsden 174
Dynamics of the Impulse Activity of Neurons of the Neocortex of Monkeys in a Visual Recognition Task after Brief Oxygen Deprivation - K. N. Dudkin, V. K. Kruchinin, I. V. Chueva, and M. O. Samoilov 182
Features of the Architectonics of Motor Speech Fields of the Brain of Gifted People in Relation to the Study of the Individual Variability of the Structure of the Human Brain - I. N. Bogolepova 189
Accessory Groups of Nonapeptidergic Cells of the Diencephalon in Intact and Hypophysectomized Rats - V. V. Grinevich, L. S. Voropanova, and I. A. Krasnovskaya 194

Volume 26, Number 3, May-June, 1996

Ultrastructure of Telencephalic Myelinated Fibers of the Hypokinesic Rat - M. G. Zhvaniya and I. M. Kakabadze 201
Delta-Sleep-Inducing Peptide as a Modulator of the Ultrastructure of Synapses - A. M. Mendzheritskii, I. I. Mikhaleva, A. É. Matsionis, and P. E. Pavilaitite 207
Projections of the Ventral Tegmentum Area, Formations of the Substantia Nigra and Nuclei of the Amygdaloid Body on Different Segments of the Caudate Nucleus and the Accumbens Nucleus in Dogs - A. I. Gorbachevskaya 213
Developments of Grafts of the Neocortex of Human Embryos in the Anterior Chamber of the Rat Eye - E. B. Smirnov, V. I. Gusikhina, V. F. Puchkov, and V. A. Otellin 220
Regional and Cellular Distribution of Mitochondrial High-Affinity Aldehyde Dehydrogenase in the Rat Brain (Immunocytochemical Investigation) - S. M. Zimatkin and Yu. G. Karpuk 225
Histochemical Method for Investigating the Activity of Monoamine Oxidase A and B in the Brain - S. M. Zimatkin and V. F. Tsydik 231
Method and Device for the Removal of Samples of Organs and Tissues for Histological Investigation - V. N. Nikolenko and O. V. Kalmin 234
Structure of the Motor Cortex of the Brain of the Hypokinesic Rat - M. G. Zhvaniya and N. A. Kostenko 237
Dynamics of Ion Currents in the Membrane of the Isolated Mollusc Neuron Under High Pressure - V. V. Shushakov and I. T. Demchenko 241

Comparison of Measurements of Local Brain Blood Flow by Hydrogen Clearance with the Inhalation of Hydrogen and Its Electrochemical Generation in Brain Tissue - Yu. E. Moskalenko, C. Rovainen, T. A. Woolsey, L. Wei, D. Lui, M. E. Spence, V. N. Semernia, G. B. Weinstein, and N. G. Malysheva 245
Universal Method for Microelectrode and Neurochemical Investigation of Subcortical Brain Structures of Awake Cats - N. F. Suvorov, A. V. Mikhailov, N. L. Voilokova, and E. V. Il'ina 251
Synchronous Recording of Neuronal Activity and Dynamics of the Content of Intracellular Bound Calcium in the Cerebral Cortex of the Cat - D. G. Semenov and S. I. Ermolin ... 256
Suppression of Synaptic Input of Defense Behavior Command Neurons by Stimulation of Neurons of the Mesocerebrum in a Preparation of the Isolated CNS of the Common Snail - O. A. Maksimova 259
Influence of the Level of the Transmembrane Potential on the Dynamics of the Extinction of the Amplitude of the Synaptic Reactions of the Snail Under Voltage Clamping Conditions - P. V. Gusev 266
Activity of Frontal Cortex Neurons of the Dog with Change in Motoric Conditioned Reflex Programs - A. P. Kozlov and G. A. Vartanyan 273
Role of $GABA_A$ and $GABA_B$ Receptors of the Brain in the Negative Feedback Mechanism of the Hypothalamohypophyseotesticular Complex - E. V. Naumenko, A. V. Amikishieva, and L. I. Serova 277

Volume 26, Number 4, July-August, 1996

Formation of the Conditioned Reflexes to a Complex Signal in Ontogenesis Under Alternate Choice Conditions - L. A. Vasil'eva, E. G. Zotova, and V. M. Vorob'ev 281
Participation Cholinergic Systems of the Dorsal and Ventral Striatum in the Training of Rats to Avoidance in a T-Maze - K. B. Shapovalova, V. T. Shuvaev, I. A. Zhuravin, and E. V. Pominova 288
Influence of Various Types of Species-Specific Acoustic Signals on the Heart Rate of Mammals - V. N. Movchan 295
Long-Term Changes, Induced by Microstimulation of the Neocortex, in the Efficiency of Excitatory Postsynaptic Transmission in the Thalamocortical Networks - I. G. Sil'kis 301
Influence of Stimulation of the Medial Hypothalamus on the Interaction of Neurons of the Rabbit Neocortex - I. V. Pavlova, I. V. Volkov, and V. N. Mats 313
Participation of Cholinergic Systems of the Dorsal and Ventral Striatum in the Training of Rats to Avoidance in a T-Maze - G. G. Khudova and A. A. Myasnikov 321
Contemporary State of Reflex Theory - A. S. Batuev 324
Cerebral Interrelationships of Cognitive and Emotional Activity: Pathways and Mechanisms - O. S. Adrianov 329
Frequency Characteristics of EEG Spectra in the Emotions - M. B. Kostyunina and M. A. Kulikov 340
Superconsolidated Conditioned Reflex – A Highly Adaptive System of Behavior - V. M. Serdyuchenko 344
Creation of a Defense Dominant During the Functioning of a Blink Dominant in the Rabbit - G. Ya. Roshchina 349
Quantitative Evaluations in Gray Crows: Generalization of the Relative Attribute "Larger Set" - Z. A. Zorina and A. A. Smirnova 357
Participation of Various Divisions of the Hypothalamus in the Pathogenesis of Experimental Diabetes in Rats - Yu. M. Kolesnik, A. V. Abramov, G. V. Vasilenko, and V. A. Zhulinskii 365

Structural-Metabolic Bases of the Effect of Vibration on Thalamic Structures of the Brain - B. A. Nasibullin 371
Venous Bed of the Central Nervous System in Disturbances of the Cerebral Venous Circulation - I. I. Kagan 377
Cerebral Cortical Nerve Cells in Extracranial Arterial Diversion - I. N. Fateev 383

Volume 26, Number 5, September-October, 1996

Reaction of the Paraventricular Nucleus of the Hypothalamus and the Dorsal Nucleus of the Vagus of Rats to Change in the Gravitational Environment - O. V. Fidelina, O. S. Gorbatyuk, I. B. Krasnov, and I. G. Akmaev 387
Thalamocortical Relationships in the Brain of White Rats in the Postischemic Period (a morphometric investigation of cyto- and synaptoarchitectionic) - S. S. Stepanov and V. V. Semchenko 392
Transmission of Information Regarding the Quantitative Characteristics of an Object in Ants - Zh. I. Reznikova and B. Yu. Ryabko 397
Orienting Reaction in Invertebrates - Zh. P. Shuranova and Yu. M. Burmistrov 406
Long-Term Changes in the Efficiency of Inhibitory Transmission in the Thalamocortical Neuronal Networks Induced by Microstimulation of the Cortex - I. G. Sil'kis 416
NO Synthase and Guanylate Cyclase Inhibitors Block Modulation of the Plasticity of Common Snail Cholinoreceptors by 15-Hydroxyeicosatetraenoic Acid - A. S. Pivovarov and W. Egido-Villareal 428
Study of the Activity of Head Ganglion Cells of Larvae of the *Drosophila* ts-Mutant with Altered Capacity for Learning and Increased Activational Properties of Calmodulin - E. V. Tokmacheva 435
Investigation of the Influence of a Vasopressin Analog on the Efficiency of Glutamatergic Transmission in the Hippocampus - I. E. Kudryashov and E. M. Ivanova 441
Motivation and Reinforcement in the Systemic Mechanisms of Behavior: Dynamic Reinforcement Engrams - K. V. Sudakov 445
Capacity of Birds for Transitive Inference: the Solution of the Gillan Test by Corvids and Pigeons - Z. A. Zorina, T. S. Kalinina, and N. V. Markina 454
Physiologic Characterization of Novel Aggressotropic Neuropeptides - V. V. Sherstnev, N. N. Galeva, S. A. Kozyrev, V. P. Nikitin, M. V. Pletnikov, K. V. Sudakov, and Z. I. Storozheva 460
Generalized and Signal-Specific Long-Term Nociceptive Sensitization in the Common Snail - V. P. Nikitin and S. A. Kozyrev 468
Formation of Taste Aversion and Preference in Protein Synthesis Inhibition in Rats - O. N. Serova, N. A. Solov'eva, L. V. Lagutina, and M. F. Obukhova 477
State of the Peripheral Nervious System in Patients with Hypothalamic Insufficiency - E. G. Filatova, A. D. Solov'eva, E. V. Kanavets, and E. G. Rogovina 482
Influence of Aspirin on the Contingent Negative Wave in the Healthy Subjects - A. M. Vein, T. G. Voznesenskaya, and Al. B. Danilov 489

Volume 26, Number 6, November-December, 1996

Reaction of Sensorimotor Cortex Neurons to Stimulation of the Lateral Hypothalamus in Conditions of Microiontophoretic Application of Tetragastrin and Bradykinin: the Role of Food Reinforcement - A. N. Kravtsov and S. K. Sudakov 493

Engl.

Electrical Activity of Isolated Rabbit Cerebral Cortex after Direct Application of Acetylcholine - N. N. Agladze, M. N. Zhadin, and D. A. Igant'ev 500
Piracetam-Induced Changes in the Functional Activity of Neurons as a Possible Mechanism for the Effects of Nootropic Agents - Ya. I. Verbnyi, L. P. Derzhiruk, and A. Ya. Mogilevskii 507
Regulation of the Septal Pacemaker Theta Rhythm by the Cervical Nuclei of the Midbrain - V. F. Kichigina and T. A. Gordeeva 516
Lateralization of Visual-Spatial Perception in Man in Conditions of Verbal Reinforcement - M. G. Tsagareli 526
Effect of Unconscious Interoceptive Afferentation on the Spatial Organization of Electrical Activity in the Human Cerebral Cortex - N. E. Sviderskaya and A. A. Kovalev 532
Relationship Between the Striatal Regulation of the Temporal Organization of Behavior and the State of Beta-Adrenergic Mechanisms - É. B. Arushanyan, É. V. Beyer, and E. V. Shchetinin 539
Neurophysiological Correlates of Improvements in Cognitive Characteristics in Monkeys during Modification of NMDA-ergic Structures of the Prefrontal Cortex - K. N. Dudkin, V. K. Kruchinin, and I. V. Chueva 545
Activity of Adenylate Cyclase and 5'-Nucleotidase in the Sensorimotor and Limbic Structure of the Brain in Rats after Manipulatory Training - I. A. Zhuravin, N. N. Nalivaeva, S. A. Plesneva, N. M. Dubrovskaya, U. B. Chekulaeva, and B. I. Klement'ev 552
Neuropharmacological Correction of Cognitive Processes Disrupted by Extirpation of the AI-AII and Ep Fields in Cats - E. I. Mukhin 558
Device for Artifact-Free Recording to Brain Electrical Activity during Exposure of Rats to UHF Fields in Conditions of Free Behavior - V. V. Vorob'ev, T. F. Gorelkova, and V. F. Konovalov 565
Effect of Intranigral Dosage with Delta Sleep-Inducing Peptide and Its Analogs on Movement and Convulsive Activity in Rats - A. A. Shandra, R. S. Godlevskii, A. I. Vast'yanov, A. I. Brusentsov, I. I. Mikhaleva, I. A. Prudchenko, and V. N. Zaporozhan 567
Stress-Induced Analgesia. The Role of Hormones Produced by the Hypophyseal-Adrenocortical System - A. A. Filaretov, A. I. Bogdanov, and N. I. Yarushkina 572
Structural Transformations in the Human Cerebellar Cortex from Birth to the Age of Three Years - T. A. Tsekhmistrenko 579
Use of Transcutaneous Electrical Nerve Stimulation in the Complex Treatment of Glossalgia - V. E. Grechko and É. G. Borisova 584
Hypoglycemic Effect of Stresses and Their Use for the Experimental Prophylaxis of Diabetes Mellitus - I. A. Volchegorskii, V. É. Tseilikman, O. L. Kolesnikov, Yu. K. Kostin, A. A. Kolesnikova, N. A. Skobeleva, I. A. Vyazovskii, and R. I. Lifshits 587
